

Inspired by the worlds of science fiction, space and time travel, the CHANEL Watchmaking Creation Studio has created the CHANEL INTERSTELLAR capsule collection for 2023.

With a pixelated motif, a circuit board design, phosphorescent effects, a star charm and a 3D robot, CHANEL presents new interpretations of the J12, PREMIÈRE, BOY·FRIEND and CODE COCO watches. These exclusive creations include limited editions of Haute Horlogerie pieces.

ECLIPSE BOX

Matte black and white ceramic are combined in a set of seven watches. The first, all white, is in the light. The second is crossed by a black band, as though moving into the shade. The third is crossed by a wider band, and so on up to the seventh, which is all black.

DESCRIPTION

Matte black and white highly resistant ceramic case
Sapphire crystal caseback with «PIECE UNIQUE» mention
Steel fixed bezel with matte black and white baguette-cut ceramic rings
Dial with matte black and white baguette-cut ceramic rings
Steel screw-down crown with black coating (excepted one design without black coating)
White and black matte highly resistant ceramic bracelet, steel triple-folding buckle
Caliber 12.1: self-winding Manufacture movement, chronometer-certified by the COSC*, with black coating
Power reserve: ~70 hours
Functions: hours, minutes, seconds
Water-resistance: 50 meters
Diameter: 38 mm
Unique piece – only available in set

MONSIEUR TOURBILLON METEORITE

The black ceramic case frames and highlights the 2 unique elements of this watch. The lion, emblem of the House of CHANEL, sits within the cage of the tourbillon and turns with the rhythm of the seconds. The dial, created from a fragment of meteorite, makes each piece unique.

For the first time, the MONSIEUR watch houses a flying tourbillon movement, the Calibre 5.1, designed and assembled by the CHANEL Manufacture.

DESCRIPTION

- Matte black highly resistant ceramic and steel case and bezel
- Sapphire crystal caseback with «LIMITED TO 55» mention
- Meteorite openwork dial
- Flying tourbillon cage set with a lion head decor plate
- Steel crown
- Black nylon strap with black calfskin trim and lining, and steel triple-folding buckle
- Caliber 5.1: in-house Manufacture flying tourbillon mechanical movement with manual winding
- Power reserve: ~72 hours
- Functions: hours, minutes, seconds
- Complications: flying tourbillon
- Water-resistance: 30 meters
